Second Exam 1<sup>st</sup> Semester 2019 / 2020

#### I. Comprehension :

### **Read The Following Text:**

The value of emeralds has been known for centuries and even in ancient times. The Aztecs in Mexico and the Incas in Peru held them in high regard. However, the oldest emeralds were found in Egypt, near the Red Sea. Many Egyptian pharaohs took emeralds from the mines there. The mines were actually known as "Cleopatra's mines" because Cleopatra liked to wear the stones. She wore jeweler made from emeralds and decorated many ornaments with the jewel. Cleopatra presented noble visitors with carved emerald sculptures that looked like the Queen.

The ancient Egyptians believed that emeralds were not only beautiful but were also able to cure disease. Historians know that these emeralds were a lighter color green than many emeralds found today, but <u>they</u> were highly valued in Ancient Egypt.
