Lesson	3 National identity	10

Introduction

Based on the vision of the Ministry of Education; to achieve quality and distinguished education that suits the needs of students, and potentially provides learners with the basic skills necessary to adapt to the requirements and challenges of life, equipped with knowledge, skills and values that help build their personalities in a balanced way, this learning material was based on basic concepts and outcomes of the English language subject for sixth graders. This material forms the basis of students' competence, and focuses on the most important concepts that enable the student to smoothly move to the next stage, thus, without a learning gap. The concepts were selected and condensed, then presented in a light manner to ensure more indulgence in the learning process through activating self-learning strategy. In addition, parents are invited to participate in this learning process.

The educational content in this booklet includes four topics, each of which includes the basic concepts of learning English language skills.

Therefore, this content was based on achieving the following outcomes:

- participate in in conversations about one's activities using adverbs of frequency
- identify different shapes through short conversations
- express features of the national (Jordanian) identity using present and past tenses

Lesson 1

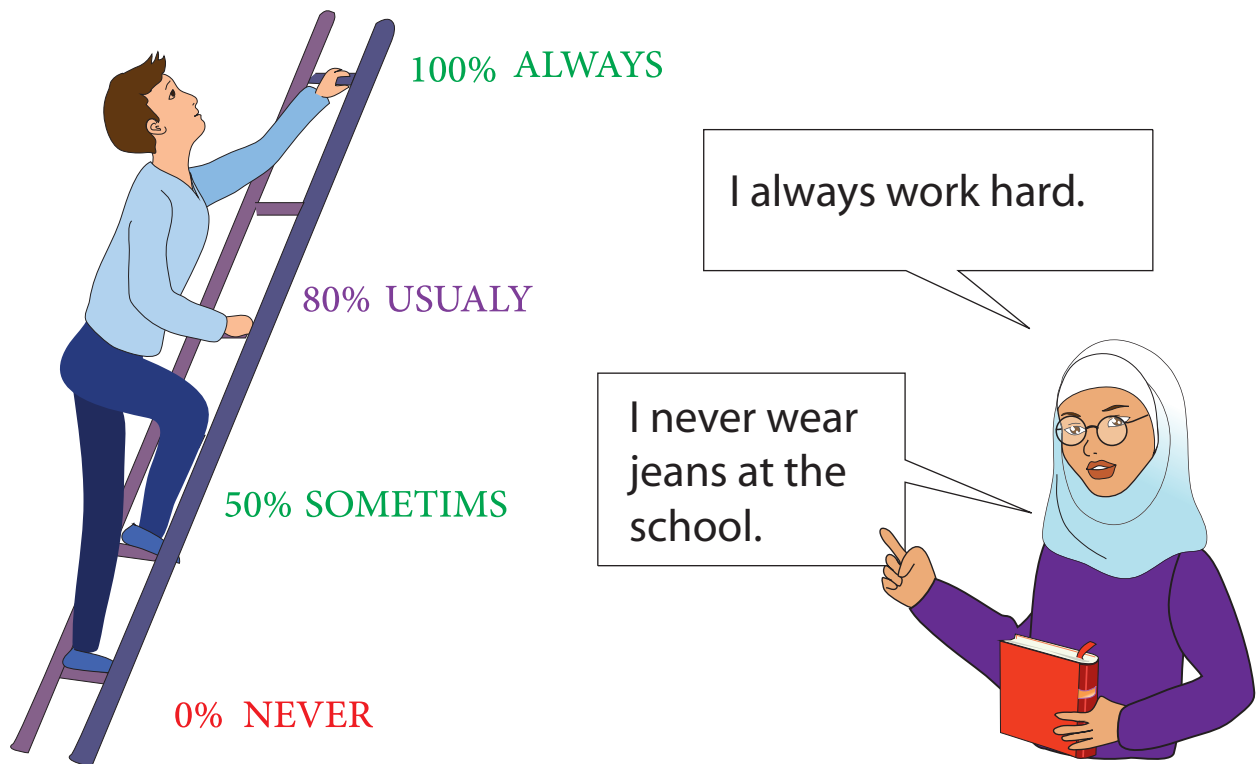

Frequency of activities
