Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Megaprojects are extremely large investment projects, which are designed to encourage economic growth and bring new benefits to cities. Projects range from motorways, airports, stations, tunnels, bridges, etc. to entire city complexes.

The concept of a megaproject is always based on the benefits it brings to a community. However, many megaprojects have been criticised because of their negative effects on a community or the environment.

Masdar City, which began its development in 2006 CE, will be the world's first carbon-neutral, zero-waste artificially-created city. Covering an area of six square kilometres, when it is completed in 2025 CE, it is expected to house more than 40,000 residents, 50,000 commuters, and 1,500 businesses involved in mainly environmentally-friendly products.

The city will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex.

Furthermore, in order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways.

1. The text provides many examples of megaprojects. Write down four of these examples. (8 points)
2. There are some procedures that will be implemented to reduce carbon footprint in Masdar City. Write down three of these procedures. (6 points)
3. Write down the sentence that shows the main reason for criticising megaprojects. (4 points)
4. How many people are expected to live in Masdar City? (4 points)
5. When will Masdar City be completed? (4 points)
6. What does the underlined pronoun "It" refer to? (4 points)

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

In this report, we will look at the countries that Jordan trades with and what goods it exports and imports.

First, let's look at exports. Jordan is rich in potash and phosphate, and the extraction industry for these minerals is one of the largest in the world.

Not surprisingly, two of Jordan's largest exports are chemicals and fertilisers. Pharmaceuticals and other industries represent 30% of Jordan's Gross Domestic Product (GDP), and 75% of Jordan's pharmaceuticals are exported. However, the majority (65%) of the economy is dominated by services, mostly travel and tourism. Most of Jordan's exports go to Iraq, the USA, India and Saudi Arabia.

Now let's look at imports. Unlike some other countries in the Middle East, Jordan does not have large oil or gas reserves. For that reason, Jordan has to import oil and gas for its energy needs. Its other main imports are cars, medicines and wheat. In 2013 CE, 23.6% of Jordan's imports were from Saudi Arabia. This was followed by the EU, with 17.6% of its imports. Other imports have come from China and the United States.

Jordan has more free trade agreements than any other Arab country, and it trades freely with many countries, including the USA, Canada and Malaysia.

Which other areas are important for Jordan's trade? Jordan first signed a trade agreement with the EU in 1997 CE. It signed a free trade agreement with Egypt, Morocco and Tunisia in 2004 CE. In 2011 CE, another trade agreement was made with the EU, Egypt, Morocco and Tunisia. Trade with the EU and North Africa in particular is likely to grow.

1. Many of Jordan's fertilisers are made mainly of two minerals. Write these two minerals down. **(6 points)**
2. Why does Jordan import a lot of oil and gas? **(4 points)**
3. Which country supplies Jordan with most of its imports? **(4 points)**
4. Jordan trades freely with different countries. Write down two of these countries. **(6 points)**
5. The text states the main goods that Jordan has to import from different countries. Write down three of these main goods. **(6 points)**
6. Find a word in the above text which means "things kept back or set aside, especially for future use". **(4 points)**

Question Four: (20 points)

2. Many jobs require ongoing training to stay competitive in a company. Some believe that it is the responsibility of the company to pay for this training for their staff; others think it's up to the individual. Write an essay discussing both views and giving your own opinion.
